New York Stock Market

New York, October 26 .- The waning influence of some of the factors which have been relied on to lift and hold in to-day's stock market. The grow-ing firmness of the money market made a more positive force on the

ing firmenss of the money market made a more positive force on the side of depression. The technical position was in favor of the party of reaction as a result of the party of reaction as a result of the accumulation of holdings in the course of the advance with no other purpose than to resell at a profit. Such selling was heavy at times, but closing prices were above the lowest.

The net earnings for the quarter reported by the United States Steel Corporation were almost exactly in agreement with estimates current in the stock market for several days preceding. The showing, therefore, had lost all power to stimulate activity, except us there were some realizing sales from those that had counted on its favorable effect to make a demand for the stock.

The Subtreasury operations took another large sum from the banking week to \$4,190,000. A credit balance for the government institution at the clearing house pointed to another large addition to the week's withdrawals tomorrow. The interior demand for currency has expanded again unexpectedly this week. The stiffening of the call money rate yesterday and today is looked upon as a mere preliminary to even higher rates next week. The private discount rate in London today rose to within a shade of the official bank rate, indicating the success of the bank in making its rate effective. The supposition, therefore, was against another advance in the which a rate to-morrow.

The high rates of interest charged at the trade stock market settlement for carrying over Americans was a symptom of the money strain. The fall in British consols to 78.3-4 marked so rapid a decline in that premier security as to demoralize investment returns and the high prices of commodities is brought sharply into relief again by this episode.

Bonds were steady, Total sales, par value, \$2,574,000. United States bonds were unchanged on call.

Bode,
Bonds were steady, Total sales, par value, \$2,574,000. United States bonds were unchanged on call.

(Sales of stocks to-day were 693,600 shares.

COTTON MARKETS. New York, October 28.—A renewal of yesterday's buying movement caused an opening advance in to-day's cotton market, but prices quickly weakened and the market later lost fully half of yesterday's advance, the close being easy at New York, October 28.—A renewal of yesbuit prices quickly weakened and the market later lose fully half of yesterday's advance, the close being easy at New York, October S.—A renewal of yes, a net loss of Source points. The opening was sleady and first prices were 26% points higher on orenight buying orders with December 14.3, or into new high ground for the movement, started by yesterday's ginning figures. But yesterday's big buyers seemed to be giving very little support, and as soon as the over-night buying orders had been executed the market turned easier under heavy realizing. At first there was some resistance to the decline, owing to a demand from Wall Street houses with Western connections, and brokers supposed to be operating for one of the big Southern buil interests, but reports from Liveppool of slack trade demand and freer Southern spot offerings on the advance inspired operations for a reaction, the strong spot people who gave the market so much support on the afternoon offerings became overwhelmingly heavy with local bears appearing aimost as agreesive as before the census figures were published. Closing prices were at the lowest point of the day, and in the case of May contracts showed a decline of over 10 points from the high level of the morning. Southern spot markets officially reported early were 1-16c, lower to be, higher. A report by a prominent local-authority, indicating that a considerably smaller percentage of the crop had been picked in Georgia and Alama than to the same date last year, seemed to strengthen arguments that the summing figures were partly due to the small gluning report had failed to stimulate the demand from milk, and that Southern holders were offering snots freely on the advance. Weather conditions were regarded as generally satisfactory beyond the possibility that a high barometer s of the week.

Receipts at the ports to-day were \$3,935 bales against 65,016 hast week and 67.855 hast year. For the week 50,000 bales against 61,556 hast week and 420,464 last year. To-day's 576 hast week and 420,464 last year. To-day's

to the Continent, 630,43 bales; to Japan, 10.195 bales; to Mexico, 500 bales.

New Orleans, La. October 28.—Cotton—
Spot cotton quist, 4c. lower; middling,
1446. Sales on the spot 630 bales and 200
to arrive. Futures opened steady, 3 points
up to 2 off. Liverpool was hearly up to expectations. After the call the trading
months stood 124 points up, but the market half hour of trading the most active months
were from 13615 points down from the
levels reached around the call. The saggring tendency of the market was checked
for a while around the middle of the morning by the rumor that one of the most
prominent members of the bull clique was
spedicting 20 cent cotton, but when it was
seen that the market was not getting even
ordinary support selling broke out again,
and toward noon became general. Frices
fell off under the pressure and the decline
caught stop-loss orders from bulls, who
bought mear the top of the market yesterday. At noon the market was quiet and
as the stop-loss orders from bulls, who
bought mear the top of the market vesterday. At noon the market was quiet and
is steady, 19 22 points unport and bears increased
their sales. The close was steady at a
decline of 30 624 points unport and bears increased
their sales. The close was steady at a

The Service of a Trust Company

Financial.

"Following closely upon the administration of the estate of the late Chief Justice Fuller by The Merchants Loan and Trust Company, as one of the executors and trustees under the will, comes the probating of the estate of the late Lambert Tree, another eminent jurist, the petition in this case being presented to the probate court on Wednesday by The Merchants Loan and Trust Company, as executor and trustee of the estate. These two instances of the corporate handling of estates are notable ones for the reason that both gentlemen were eminent in the profession of law—one having occupied the highest place in the world's greatest tribunal, and the other having distinction throughout both continents as a lawyer, a judge and a diplomat, and both having chosen the same institution to administer their affairs. And there is even more than this prominence to be given the circumstances. When men so schooled in legal requirements and legal responsibilities, to say nothing of legal possibilities, turn to the modern trust company. and legal responsibilities, to say nothing of legal possibilities, turn to the modern trust company and use its machinery as a safeguard for the proper handling of their estates after death, the system is given the strongest possible endorsement. The estate of Justice Fuller was valued at nearly one million dollars, while that of Judge Tree is more than four and a half million dollars."

The above editorial clipping from the Economist was handed to us by one of our thoughtful citizens with the suggestion that we make it the basis of an advertisement. We adopt the suggestion because it emphasizes our proposition, to-wit: That a strong institution like the VIRGINIA TRUST COMPANY is better qualified to act as Executor and Trustee than an individual. The reasons are many, and we invite the opportunity of pointing out these advantages to any prudent man or woman interested in the matter.

Booklet on trusts sent free. In it are given some valuable information about the drawing of a Will.

VIRGINIA TRUST COMPANY RICHMOND, VIRGINIA. CASH CAPITAL, \$1,000,000.00
